```
graph TD; A["/media/roodram/72F8C754F8  
C7156F/Roodram/Semester  
5/Lab/Assign2/Ques1_server.c"] --> B[unistd.h]; A --> C[stdio.h]; A --> D["sys/socket.h"]; A --> E[stdlib.h]; A --> F["netinet/in.h"]; A --> G[string.h];
```

The diagram illustrates the preprocessor directives at the top of the file 'Ques1_server.c'. A central box contains the file path and name. Six arrows point from this box to a row of six header files: unistd.h, stdio.h, sys/socket.h, stdlib.h, netinet/in.h, and string.h.

unistd.h

stdio.h

sys/socket.h

stdlib.h

netinet/in.h

string.h
